FINE MOVING PICTURES.

Splendid Exhibition at the High School Auditorium.

The wonders of the moving picture machine in the highest state of perfection were revealed at the High school auditorium last night, where the Lyman D. Howe company gave an exhibition before an audience which almost completely filled the large room. The pictures shown were all out of the beaten track and all new. There was a noticeable absence of the flickering effect which generally mars exhibitions of this kind, and nearly all

the views shown were especially clear. Most interesting of all were those showing daring mountain climbers scaling several of the highest Alpine peaks. These pictures were taken at extremely high altitudes, the one showing three men at close range reaching the topmost summit of the Jungfrau, having been taken from a narrow passageway on the edge of a precipitous cliff rising 13,000 feet above the level

of the valley below. There were scenes showing a panoramic view of the grand canal in Venice and one which the audience seemed to like most of all showed the Shamrock and Columbia rounding the stake boat on the afternoon of one of the big yacht races last fall.

An able corps of assistants were stationed behind the canvas on which the pictures were shown, and they succeeded in giving imitations of well known sounds during the progress of the exhibition. There was a splendid imitation of the splash of water which was used during the showing of the marine views and the sound of a puffing loco motive was simulated to perfection.

HAVEN'T AGREED YET.

Select Council Democrats Hold An other Futile Caucus.

At the end of the caucus of the Demo was held last Thursday night, the said members were in a state of tumult and strife. They are still in this state, despite the fact that they held a long caucus at the St. Charles hotel last night.

Councilman D. W. Vaughan again reused to attend the caucus, which began at 9 o'clock and which continued, with intermissions, until after 11 o'clock. When adjournment was taken no candidate had been agreed upon, but the members present were unanimous in assuring the newspaper men that at the final meeting, to be held omorrow night, a candidate agreeable to everyone would be selected. "How about Vaughan?" was asked.

"Oh, he'll be at the next meeting all right," said one of the members, "and he'll accept the candidate selected." Mr. Vaughan himself is non-commit tal and refuses to say whether or not he will attend tomorrow night's caucus. The difficulty which is presenting itself seems to be that no candidate

agreeable to everyone can be picked up, There are enough votes to choose, as the candidate of the caucus, but the question which is bothering the members is 'Could he get all the eleven votes, on the morning of reorganiza-On the surface, everything is ap-

COLES FOR APRIL.

From Storms and Signs.

Our predictions for March were so accutately fulfilled, that we have received many compli-mentary notices from the newspapers and from friends, for which we wish to thank one and all

for their kind, encouraging words.

There will be two collises during the present month. One will be a partial eclipse of the sun April the 8th; as the eclipse takes place in sign Aries, which rules the head and face of man, an epidemic of head trouble will be sure to fol-low, and it will prove tatal to those born in that sign unless proper precaution is taken. Weak-ness and lameness of the loins will also be pre-valent. A total celipse of the moon will occur the 22d, not visible in this country. the 22d, not visible in this country. While Libra, the Balance, shall be endeavoring to balance the unequally divided electrical currents during the Vulcan and Mercury periods, which will occur this month, Aries, the Rain, may take a notion to "batt," If so, then look out for totnadoes, hall, snow, rain and floeds. From the 2nd to the 10th heavy thander starms give he and to the 10th heavy thunder storms may be looked for, as Moon is new and on the equator during that period. A warm wave will follow. From the 14th to the 25th chances are that heaviest general storm period of the month will occur, as the Moon is perigee and at its full during that time See our Storms and Sign Calendar. Price 10 cents,

Wars and awful crimes will occur in India, Bulgaria and South Africa, as Saturn, the ruler of the countries, is in sign Capicorn.

Every one should know wist sign they were porne under, so as to defend themselves against the exil influence of their opposing planet. We have reasons to believe that the "caterpillar" will do untold damage this summer unless immediately action is taken to rid the country

EVIDENCE FOR THE DEFENSE

IT IS BEING OFFERED IN THE haide clear profit of all the ticket sales. EJECTMENT SUIT.

> Allegation Is That the Tax Sale of the Property Nullified the Declaration of Trust Given by W. W. Winton to Isaac Dean-Keegan Insurance Case Had to Go Over on Account of the Illness of an Important Witness - Case Against City on Trial.

> All of yesterday was consumed in the trial of the ejectment suit of A. D. Dean, trustee, against B. M. Winton, executor, to recover a half-interest in forty-two acres of coal land in Greenwood. The plaintiff completed the paper title on which his claim to the land is based, and put A. B. Dunning on the stand to identify the land mentioned in the deeds as that claimed in the ac-

tion now on trial.

Attorney C. H. Welles opened the case for the defendant, and following that the paper title of the defendant. J. B. Laubach and Sterling Davis, clerks in the commissioners' office of Luzerne county, produced a number of the tax books of the early 70's, before the division of the county, showing the names of the persons to whom the land in question was assessed.

The theory of the defense is that the rust agreement for one-half of the land given by W. W. Winton to Isaac Dean at the time of the sale, was rendered old when the whole property was sold by the commissioners of Luzerne county for taxes and was purchased by W. W. Winton.

The case of J. B. Gilhood against L. A. Roberts, of Carbondale, called for trial before Judge Kelly, Monday afternoon, was given to the jury yesterday afternoon, but a verdict had not been agreed upon at adjourning hour

Martin Corrigan against John Stanton and others, trespass, was the next case called, but there were not sufficient jurors available to select twelve good men and true from, and the opening of the case had to be deferred until this morning.

The case of Miss Kate Keegen against the Metropolitan Insurance company was put on trial before Judge J. B. Simonton, and a jury sworn. The case was called Monday but was put over until yesterday on account of the llness of an important witness for the defense, who its was thought would be able to be in court yesterday.

After the jury was sworn, Forme Judge E. N. Willard, attorney for the defendant company, presented a physician's certificate showing that the witness was confined to his bed yesterday. He asked permission to have the testimony of the witness taken at a former trial read. Attorney C. W. Dawson objected to this, saying he wanted an opportunity to cross-examine the witness further. It was thereupon agreed to have the case go over until the next term. A juror was withdrawn and the case continued.

The case was tried about a year ago and the jury disagreed. The plaintiff tained by a mis-statement of facts.

Moore against the city of Scranton was er's jewel in recognition of his earnest services, tried before Judge Simonton. The The presentation address was delivered by Grand tried before Judge Simonton. The plaintiff owns a property on Pawnee street, in the Third ward of this city which she alleges was greatly damaged by surface water thrown upon it by the opening of Oak street by the city in appearance, however, indicated that he was in no pleasant frame of mind was to the effect that the water from remarkably leautiful. Sir William L. Mcguigan Oak street was thrown onto Pawnee street and thence ran onto the land of the plaintiff, damaging the walls of the house, the trees in the lot and the

> After the plaintiff rested, City Solicitor Watson asked for a non-suit on the ground that no negligence on the part of the city was shown; that the improvement was made by virtue and that it was not established that the plaintiff was the owner of the lot, as he deed is in the name of B. Moore Judge Simonton refused the non-suit. and allowed the plaintiff to offer testimoney later to show that the name of B. Moore in the deed was a mistake and was meant to be Sarah J. Moore. Solicitor Watson then opened the case to the jury. He said they would show that it is impossible for water to flow from Oak street to Pawnee street unless it flowed up hill. City Engineer Phillips was then called and told abou the opening of Cak street. The trial of the case will be resumed this morning.

SELECT COUNCIL MEETING

Passed a Number of Ordinances on Third Reading-The Bribery Resolution Passed.

An adjourned meeting of select coun-

il was held last night to clear the files of ordinances that must be disposed of before councils adjourn sine die next The following ordinance passed on third reading: Providing for sewer system to sewer portions of Wyoming avenue, Ash street, Oakford court, Forest court and Breck court; for the erection of two electric lights in the Second ward; for sidewalks on Parker street, Throop street and Depot street; for four electric lights in the First ward: for flagstone sidewalks on Bromley avenue between Jackson and Washburn streets: for a day gateman at the Marvine crossing of the Delaware and Hudson crossing in the First ward. An opinion from the city solicitor was read, which stated that he was of the opinion that councils have the right to pass such an ordinance.

The common council ordinance directing the recorder to investigate the charges of bribery made in connection with the passage of the gas franchise ordinance was adopted without com

ment. A new resolution which was adopted authorized the director of the department of public works to exchange the oad roller now in use for a new one. Harrisburg firm has agreed to sell the city a 1216-ton roller for \$3,500 and \$1,000 for the old roller. The sum of \$1,000 appropriated for repairs on the old roller will be transferred and applied on the purchase of the new roller.

A resolution introduced by select Councilman Vaughan, which was also adopted, directs the director of the department of public safety to discharge the help at the emergency hospital and close it up. He is also directed to have it insured and lease it at a nominal rent, if he can get a suitable tenant.

PAINTERS' STRIKE ENDED THE DAY IT BEGAN.

Each Side Made Concessions and an Amicable Adjustment Was the Result-Eight-Hour Day at Old Nine-Hour Wage Is Granted, but the Old Rate of Wages Is to Be Paid on All Work Contracted for Last Fall and Not Yet Finished.

The expected painters' strike came and went in a day. All the journeymen employed by the larger firms, excepting twenty-six employed by Jacobs & Farold and Charles Rerig, remained away from work, yesterday morning, as the union had directed. During the day the master painters and a committee of the strikers got together, and by giving and taking succeeded in adjusting their differences. The men had been receiving a mini-

mum wage of 25 cents an hour for nine hours. They demanded that beginning April 1 they should receive a minimum of 28 1-8 cents for eight hours. They also demanded that on all out of town jobs the employer should pay their railroad fare and board.

The master painters were willing to concede all these demands, providing they did not go into effect until May 1, and providing further that journeymen when laid off on account of slack times should not take jobs at less than the master painters charged.

The two sides could not agree and, vesterday, the strike order went into effect, and was generally obeyed. the afternoon the master painters assembled in the store of Jacobs & Fasold and met a committee of the strikers, headed by Walking Delegate Peter Holton. After a lengthy conference an agreement was arrived at. It was in substance that the journeymen's demands should be granted, to take effect as of April 1: that the old rate of wages should obtain on all jobs contracted for last fall and not yet completed, and that when a journeyman vho is laid off takes an independent job he shall turn it over to the shop in which he was last employed.

The eight hour day will be divided nto two shifts of four hours each, from 8 to 12 a. m., and 1 to 5 p. m. The new schedule practically means only the cutting down of the hours of labor. The wages still remain at \$2.25 a day. The master painters who have signed he agreement are: Jacobs & Fasold, Charles Rerig, Alex. Naegli, George Briegel, Hulbert & Lyman, Charles Lyman, Stewart & Fowler, Fred Klugt, Jacob Kossman and F. J. Johnson

A MILITARY BALL.

Delightful Affair Given Last Night by Company F in Armory.

The members of Company F. Thireenth regiment, conducted a ball at the new armory last night, which was a sort of small edition of the big charity ball which preceded it on the previous night.
The same beautiful decorations were

in place, and Bauer's enlarged orchestra of seventeen pieces rendered a finely arranged programme of dances. There were about 125 couples in attendance. The following ladies acted as patronesses: Mrs. Ezra H. Ripple, Mrs. L. A. Watres, Mrs. T. R. Brooks, Mrs. Willard Matthews, Mrs. Franklin Henshaw, Mrs. George C. Merriman, Mrs. F. F. A few days ago a New York reporter had asion to write a paragraph about Archibale Ross Colquboun, the well known English traveler and engineer. The reporter was told that after Mr. Colquboun's name the letters "M. I. C. E." (Member of the Institute of Civil Engineers) should be place.

neers) should be place.
"That's casy to remember," thought the
young journalist, "M. J. C. E. spells 'mice.
Can't forget that."
But the disadvantage of systems of memorie.

was once again illustrated, for when the in

porter's copy was turned in the letters Mr. Colquboun's name were "R. A. T.
